RE: Petition for reinstatement of Patent 5947356

Dear Commissioner for Patents,

My father, Ronald C. DeLong, recently passed away prior to payment of a maintenance fee on Patent No. 5947356. Following my father's unexpected death August 12th, 2011 his patent expired on September 7, 2011 before the family became aware of the patent expiration. I now submit a Petition to Accept Unintentionally Delayed Payment of Maintenance Fee in an Expired Patent along with the maintenance fee and associated surcharge.

Since patent rights were in the name of my deceased father I wish to re-assign ownership of the patent to myself, a surviving son. It is important to note my father is survived by a spouse, Joni K. DeLong, his legal heir, who also desires reassignment of the patent in my name.

The expiration of the patent was discovered approximately one month following my father's funeral. Because I live ten hours away I returned to help Joni attend to personal and business matters in mid September. It is then we discovered the maintenance fee had not been paid and the patent expired. A maintenance fee reminder letter was located near the top of his action items, indicating that he intended to pay the fee and renew the patent prior to expiration and his untimely death. Following this discovery I have been attending to his personal and business matters and researching how to renew the patent.

Please advise if this application is complete or requires additional information for processing. I may be contacted at the following:

Your prompt attention to this matter is sincerely appreciated.
